THE QUALITY STORE.EXPLANATIONS OF THE
NOR. PACIFIC MYSTERYDifferent Theories as to the Real Ownership
of the Property at Present.ONE SAYS MORGAN AND HILL,
ANOTHER SAYS IT IS THE HARRIMAN'SA Mr. Schiff, Which is German for Ship, Held the Cards While Jim Hill
Thought He Held the Spades—The Jew Firm May Be Inside
of Both of Them.

New York, May 13.—Referring to the recent corner in Northern Pacific, the Herald today says: The Union Pacific interests quietly began buying the stock through negotiations with large holders. Great Northern stock was obtainable, being very closely held by Mr. Hill and his friends. The control of Burlington has passed and the only property remaining available that had any voice in the matter was Northern Pacific.

Had it not been for the friendship which has existed for many years between Jacob Schiff and J. P. Morgan, it is doubtful if the difficulty would have been precipitated. On the uprush of prices, holders of Northern Pacific, including officers and directors of that company, sold their stock, hoping to rebuy it in the market at lower prices. So far as is known, only one of those sold short and he, a holder of record for a large amount, unloaded his entire holdings and was caught short five thousand shares.

Northern Pacific men suddenly learned the true situation as the result of a conversation between Mr. Schiff and Mr. Hill. Mr. Hill, it is said, was boasting of his accomplishment of getting the Burlington and was commenting upon the bright prospects of Great Northern as a result of the acquisition. Mr. Schiff is alleged to have said in reply:

"Mr. Hill, we have been friends for a period of 15 years and the firm of Kuhn, Loeb & Company have financed the Great Northern Railroad time and again when its credit was not as high as it is at present and when the property was vastly from its conditions now."

"I hope that the friendly relations, both personal and of a business nature will continue and it is only in consequence of our friendship that I tell you this. I think I owe it to you, Mr. Hill, to let you know that you and your friends do not hold the control of Northern Pacific. The control of that road is in Kuhn, Loeb & Company's office at the present time."

"That isn't possible," Mr. Hill retorted. "I own \$30,000,000 of the stock myself and I have not sold a share. With my holdings and those of my friends we have an absolute majority."

"You may be holders of record of the majority," replied Mr. Schiff, "but we hold the certificates. Including the common and the preferred stock, we have a clear majority."

Immediately after this conversation

the famous buying of Northern Pacific was noted. In New York, London and Berlin it was the same. The orders were unlimited, either as to price or quantity. The conclusion seems definite that some of Mr. Hill's friends had parted with their stock and were not at the time the absolute owners of the property. Nothing else could possibly explain the employment of James R. Keene by the banking house of J. P. Morgan & Company and the tremendous purchases of the stock through Street & Norton, who openly bid in 150,000 shares and forced the price up 24 points.

"That some of the buying came from Kuhn, Loeb & Company is not unlikely, but what is called the competitive buying was not altogether a contest between the rival interests. It was due in part to heavy repurchases of stock through a Broadway banking and brokerage house which handled the speculative accounts of some large interests identified with the Northern Pacific property."

It will undoubtedly take some time to definitely settle where the control of the property really lies. That the contest is very close is indicated by the buying by both parties of fractional share lots throughout the country. Both houses have, in addition to stock, some contracts and where the contracts rest it cannot be stated positively. More light will be thrown on this point, however, with the arrival of the steamship from Europe.

James R. Keene in an interview last night said: "I believe Morgan and Hill have control of Northern Pacific. Some time before the so-called panic, J. Pierpont Morgan & Company bought 180,000 shares of Northern Pacific stock through Talbot J. Taylor & Company. The order was executed so quickly and with so much suddenness that the purchases were made before anybody could determine just what the buying meant or whether it was for a speculative account or something else. Nearly all the stock Morgan & Company bought was delivered to them. Then the other side began buying."

The Times says: "It was learned late last night from a source that should be in a position to be well informed that the actual stockholding interests in the Northern Pacific of the Harriman people is sufficient to give them control of the property, this regardless of commitments for future delivery of stock."

London, May 13.—The exchange committee and J. P. Morgan have come

to the rescue of the situation and the difficulty in which operators and brokers who have given calls for Northern Pacific for the end of May and July found themselves, is satisfactorily settled.

RAILROAD BONDS
HAVE BEEN LOSTSomewhere Between New York and
the Pacific Coast.They Belong to an Estate and Seem
to Have Dropped Out of Sight.

New York, May 13.—Lost somewhere between this city and the Pacific Coast are \$35,000 in railroad bonds which David T. Hartshorn of Brooklyn is anxious to find.

Mr. Hartshorn is the administrator of the estate of Richard Lauer and Caroline M. E. Lotter. Mr. Lauer and Mrs. Lotter, his daughter, were residents of Brooklyn. The former died on May 1, 1901, in San Francisco. He transferred to his daughter, Mrs. Lotter, 38 railroad bonds of the value of \$1000 each.

Mrs. Lotter was with her father at the time of his death. She died in Brooklyn on November 10 last. The bonds in question formed part of the estate left by her but the Administrator, Mr. Hartshorn has been unable to locate them.

It is his belief that some time before her death Mrs. Lotter deposited the bonds in some bank or safe-deposit vault, either in this city, Chicago, Cincinnati, St. Louis, Kansas City or California. Mr. Hartshorn has recovered all the interest coupons belonging to the bonds, but his efforts to trace the bonds themselves have failed.

"This missing securities are seven first mortgage bonds of the Texas & Pacific Railroad Company, 26 first mortgage bonds of the Chicago, St. Paul & Minneapolis Railroad Company and five first mortgage bonds of the Metropolitan Elevated Railroad Company of this city."

DoctorsCan't cure an incurable disease. Nor can Ayer's Cherry
Pectoral. But it has cured some most desperate cases, as
you can see by the testimonial below.There is this peculiar thing about Cherry Pectoral: it
cures slight coughs and colds, and it cures the hardest kind
of lung troubles, also. We mean severe cases, desperate
cases, chronic cases, such cases as no other medicine in the
world touches.

"I was given up to die with quick consumption. I rapidly lost in weight from 138 to 95 pounds. I went to
bed never expecting to get up alive. I had repeated hemorrhages and my cough seemed to be beyond control. I
then read of Ayer's Cherry Pectoral and began its use at once. In nine months I was back to my old weight, a
well man again in every way. How can I thank you enough for giving such a life-saving cure?"

Three sizes:
25c., 50c., \$1.00.
All druggists.

To keep on hand you will like the \$1.00 size best, and you will
need this amount to cure a chronic or very severe case. The 50c. size is
just about right for bronchitis, hoarseness, la grippe, croup, etc. The 25c.
size is convenient when traveling, and is enough to break up a fresh cold.

THE NEW SHAMROCK
WAS OUTSAILEDWill Not Be a Match for the New
American YachtUnless the British Sports Are Hold-
ing Her Back to Win Money.

LONDON, May 13.—Shamrock I today
beat Sir Thomas Lipton's new boat by
five minutes and five seconds over the
triangular course of about 20 miles.

There was no discoverable holding
back of the challenger, although once or
twice she pointed such a course as left a
suspicion that the steersman was not
taking advantage of every chance. The
results of today's trial was distinctly
disappointing to those who had planned
their faith to the new challenger.

WOULD ESTABLISH
MINIMUM WAGESSuch Said to be the Object of the Fed-
eration of Labor

New York, May 13.—Samuel Com-
pers, president of the American Federa-
tion of Labor, according to the Wash-
ington correspondent of the World,
made a statement last night in
reply to assertions of President
Schwab of the United States Steel
Corporation before the Industrial Com-
mission that labor organizations put all
men on a level and prevent one from
advancing unless all advance. Mr. Com-
pers said:

"It is a misstatement to say that we
are endeavoring to fix one price for the
wages of workmen of any one class.
What we aim at is to establish a mini-
mum of wages, below which a working-
man will not be obliged to labor. Be-
cause a minimum is established it does
not follow that a worker cannot receive
more than that."

"We are engaged in promoting the
general welfare of the working classes
and are aiming at their general improve-
ment; rather than trying to get one pre-
ferred position for some particular in-
dividual."

It may be true that there are cases
where a laboring man advances beyond
his co-laborers but it is usually at the
expense of others. Better the condition
of the craft generally and all will profit."

Our Government is officially informed
by the Russian government that the
Russian policy from the first has been
and still is to maintain the integrity of
the Chinese empire and the government
of that country as it existed "ab
antique."

Latest from Mrs. McKinley is that she
rested well last night at San Francisco,
but unless there is a radical change for
the better party will leave for Wash-
ington, D. C., as soon as celebrations in
San Francisco are over.
